Subject: Request to provide the Components available in the Department for Mini Project

I hope this letter finds you in good health and high spirits. I am writing to request you to provide the mentioned components for a mini project as part of my coursework in the Department of Electronics and Communication.

The project, titled [ROBOT FOR DRAINAGE BLOCKAGE], To successfully complete this project, I require the following components:

1) Raspberry pi, DC motor, Car bases model, stepper motor, Bluetooth module, motor shield l293d, battery of 12 voltage.

I have researched the availability and cost of these components and found that they are essential for the project's successful execution. I kindly request your approval and support in providing these components from the department's resources or facilitating their purchase.

I assure you that the components will be used efficiently and responsibly for the intended purpose. Additionally, I will provide regular updates on the project's progress and submit a comprehensive report upon its completion.

Thank you for your time and consideration. I look forward to your positive response and am available for any further discussions or clarifications regarding this request.

Yours sincerely,

Nithish Kumar MP
